

2024 The Transport Project Achievement Awards

The Transport Project sponsors *The Transport Project Achievement Awards* to recognize individuals and organizations for their outstanding contributions toward the advancement of gaseous-fueled transportation. They are awarded to nominees from all stakeholder segments, including but not limited to: TTP industry equipment and service suppliers, policymakers, customers, and clean air/clean transportation advocates. Nominees' disciplines include education, government relations/policy development, public relations/communications, marketing, technology and operations/applications, among others.

Judges representing The Transport Project will evaluate the nominees based on established judging criteria. The Achievement Awards program is non-competitive; the qualifications of the nominees dictate the number of awards presented. There is no pre-determined number of awards.
